## **Business Description**

All Star Code is a forward-thinking nonprofit organization with a simple yet transformative mission: to propel young men of color into the dynamic world of technology. Recognizing the disparity in tech-related opportunities for Black and Latino teens, All Star Code steps in to fill that gap, ensuring that the tech industry's future is diverse, innovative, and inclusive.

Our foundation rests on providing immersive, hands-on training in computer science and entrepreneurship, empowering the next generation to not just join the tech landscape but to redefine it. Through our free 6-week flagship Summer Intensive coding program and a network of successful alumni, All Star Code has become the beacon for teens eager to turn their tech aspirations into reality. As a participant, you don't just learn to code; you gain the tools, mindset, and network to chart your unique path in the tech world, all while joining a supportive community that champions your success.

## **Knowledge/Skills Needed**

- Any Male-Identifying Boys/Young Men of Color (BYMOC) of High School Age
- A Passion for Technology: No prior coding experience needed!
- A Commitment to Learning: Be Ready to Bring a Growth Mindset
- Be Open to Collaboration: Work with Like-Minded Peers and Tech Mentors
