

# Invitation to Get Involved

Career Ready Lancaster! is a career pathways partnership linking people to their career through collaboration of education, business, and community groups.

People often ask how to get involved. The purpose of the chart on the reverse side is to help you get started, as you explore ways to further engage with Career Ready Lancaster!

We invite you to get involved in whatever way aligns with your time and level of commitment. The chart on the reverse side of this invitation offers suggestions based on ease of implementation.

Level 1 is the easiest way to get started but certainly does not represent a rigid formula. We welcome your contributions at all levels.
